

ECE Program Course Equivalents for Columbus State Community College

Students may also check the Ohio CAS (Course Applicability System) website at www.oh.transfer.org

Please note: Coursework successfully completed at an institution other than OSU that is equivalent to courses required at OSU will fully count as meeting the program course requirements for admission to OSU programs. However, be aware that entrance to major requires a satisfactory grade point average in both overall courses and the specific courses required by the program for admission. In calculating grade point averages, only OSU courses are used. A minimum grade of 'C' is required for transfer credit from CSCC.
